RIVERTON, LA.,

3/9/16.

U.S. Department of Agriculture.
Washington D.C.

Dear Sirs:

I notice you are issuing a card for reports on the different Nurseries throughout the U.S. As if I have only been in the Nursery business for one year, I will give you a list of approximately what stock I will handle in the Nursery.

Peach, Plum, Apple, Pear, Grape, and Pecan. Ornamental trees and shrubs as follows: Magnolia Grandiflora, Live Oak, Black Locus, Umbrella China, Maple and Ferns, Roses, etc.

I would be glad to have a list of the latest addition of Nurseryman throughout the U.S. Also if you have an addition of latest diseases in the Nurseries, I would be glad to get a copy.
I am yours very truly.

A. R. Manley
